

Card Account Updater

Optimized card processing; enhanced customer experience.

Reduce the number of late or declined card payments resulting from outdated card information. Drive customer loyalty by avoiding the headaches with failed payment transactions all seamlessly integrated with your current payment processing experience.

Improve Authorizations & Enhanced Customer Experience

- Increase card authorization rates while reducing cost of declined authorizations
- Improve customer satisfaction and reduce customer churn by avoiding payment interruptions
- Only pay for successful updates performed
 - Account Number Changes
 - Account Expiration Date changes
 - Closed Account
 - Contact Cardholder indicators

Convenient & Easy to Use

- Payliance handles integration and automated updates on your behalf
- Clear streamlined reporting via Payliance Merchant Portal
- Configurable look back period to give you control of your experience
- Secure Processing: PCI is maintained by leveraging token enabled process
