

Treasury Automation Service

Optimize Treasury Workflows

Streamlining ACH processing to accelerate capital, reduce risk, and drive scalability.

The Problem: Operational Inefficiency, Compliance Complexity, and Financial Risk for Consumer Installment Lenders

Lenders face a growing set of challenges:

1. **Fragmented cash flow and reconciliation processes** across multiple investor groups, ISOs, and regions create inefficiencies and slow operations.
2. Navigating **complex regulatory frameworks** like NACHA standards, state-level compliance, and investor reporting requirements demands precision and consistency.
3. Scaling operations while mitigating **financial and reputational risks**, particularly in industries where transaction volumes and compliance scrutiny are high.

Whether prime, near-prime, or subprime, lenders must optimize operations to turn capital faster, reduce risks, and ensure compliance—all while maintaining transparency and trust with investors and regulators.

The Solution: Payliance Treasury Automation Service

Payliance Treasury Automation Service delivers a comprehensive platform designed to streamline treasury workflows, improve compliance capabilities, and enable scalability across diverse lending environments. By integrating automation, risk safeguards, and high-volume processing, our solution empowers lenders to focus on growth while minimizing operational and regulatory burdens.

Overarching Value Proposition

With Payliance Treasury Automation Service, lenders can:

- **Streamline Operations:** Automate workflows, accelerate reconciliation, and improve transparency for faster capital deployment.
- **Reduce Risk:** Built-in safeguards and fraud prevention tools mitigate operational and reputational risks.
- **Ensure Compliance:** Integrated compliance frameworks address NACHA, state, and federal requirements, simplifying oversight.
- **Enable Scalability:** Enterprise-grade infrastructure supports high transaction volumes and operational growth without added complexity.

Why Payliance?

Payliance combines over a decade of experience in treasury workflows, compliance, and risk management with enterprise-grade technology to deliver unparalleled value to lenders. Whether you're managing prime, near-prime, or subprime portfolios, Payliance provides the tools to operate efficiently, grow faster, and mitigate risk in a competitive lending environment.

The Payliance Advantage

- **Purpose-Built for Lenders:** Expertise in lending workflows, regulatory frameworks, and risk management ensures relevance across the lending spectrum.
- **Scalable and Reliable:** High-volume processing capabilities and robust ACH infrastructure support growth and operational resilience.
- **Compliance First:** Proactive regulatory safeguards and fraud prevention tools ensure peace of mind and operational continuity.

How It Works

1. Customizable Treasury Workflows

- Configurable **settlement account segregation** by investor group, ISO, or merchant location ensures tailored reconciliation and reporting.
- **API-driven integration** with LMS, ERP, CRM, and financial systems automates workflows for seamless operations.

2. Compliance and Risk Mitigation

- **Regulatory Compliance Expertise:** Built-in frameworks support NACHA standards and state-level licensing, reducing audit and penalty risks.
- **NACHA Return Monitoring:** Advanced tools include fraud blockers, customizable verification processes, and remediation programs to mitigate high return rates.
- **Reputation Protection:** Risk-mitigating partnerships and proactive compliance monitoring reduce reputational risks with investors and stakeholders.

3. High-Volume Processing and Redundancy

- **Top-Tier ACH Processing:** With support from **four ODFI partners**, the platform handles over 125M ACH transactions annually, providing redundancy and reliability.
- **Same-Day ACH Windows:** Offers three Same-Day ACH processing windows up to 3 PM ET and late cut-off times for next-day ACH settlement (up to 11 PM CT).

4. Fraud Prevention and Transactional Integrity

- **Fraud Reduction Tools:** Integrated fraud blockers and secure verification processes protect lenders from operational losses.
- **Secure FBO Accounts:** Fully compliant accounts with all banks ensure operational stability and adherence to licensing requirements.

Key Value Drivers

For CEOs & CFOs

- **Strategic Scalability:** Enterprise-grade infrastructure enables operational growth without proportional increases in cost or headcount.
- **Reputation Protection:** Compliance-centric features safeguard the company's reputation with investors and regulators.
- **Competitive Advantage:** Faster capital turnover and streamlined treasury workflows position your organization for leadership in the lending market.

For CFOs

- **Cost Optimization:** Faster reconciliation and efficient cash flow management reduce debt costs and improve financial margins.
- **Risk Mitigation:** Fraud prevention tools and collateral safeguards minimize exposure to financial and reputational risks.
- **Regulatory Assurance:** Automated compliance frameworks reduce the risk of penalties or failed audits.

For Heads of Treasury

- **Operational Efficiency:** Configurable workflows and detailed reporting simplify treasury operations, saving time and reducing errors.
- **Capital Velocity:** Faster settlement times enable quicker redeployment of funds, maximizing lending capacity.
- **Simplified Reporting:** Configurable portals ensure investor-ready outputs, reducing administrative burdens and improving transparency.
